ZANZIBAR EQUIPMENT Bought in Goldfield

O. B. McCraney, who is in charge of the Zanzibar and White Caps Extension Mining companies' properties at Manhattan, came back from Goldfield last evening after spending a couple of days in that camp looking after the equipment that has been purchased for the joint shaft going down on the two properties. The machinery will be about as heavy and complete as any in the country country, and Mr. McCraney is con-gratulating himself that he was able to get what he was after without waiting for delivery from manufacturers who are refusing to book or ders for any part of electric install-ation for delivery in less than six months and no guarantee that the appliances will be forthcoming at e. Morning Glory began doing things this morning when the call was opfrom 17 to 21 before the noon hour with a turnover aggregating 75,000 shares. The activity was due to a strike of high grade made in No. 3 shaft last evening. which gave returns of \$100 and \$125 per ton in free gold. The news was received oo late to enable anyone to take advantage of the market Tuesday afternoon, but this morning every broker was loaded with buying or-ders that soon had the effect of rescuing the Manhattan stocks from the doldrums. The main shaft of the company is down 138 feet, but the assays in that quarter run only from \$1.50 to \$6 per ton. The No. 3 shaft which was sunk from an open crosscut is down only 40 feet and the entire bottom of the shaft is in ore running better than five ounces in gold with \$140 as the best return reported by N. P. Nelson, the uperintendent.

Spend Money Wisely. Says a prominent New York banker:

'It is more important to know how to spend money wisely than to earn it easily. If you want to give your boy and girl a good start teach them both the fine art of thrift. And what is thrift? Thrift is all of prudence, economy, frugality and industry-and then ome. Thrift is that instinct of the dog that buries the bone he does not want today for tomorrow's wants, the instinct of the squirrel that knows nutting is out of season in winter. And there is thrift of earning power and thrift of spending as well as thrift of saving.

Wonderful Soda--That's what they all say

and why wouldn't they any it? It certainly is the most wonderful soda we have ever seen, and probably the very best and that can be produced today. That is the reason. First, parity of ingredients, then careful manipulation, then a santiary fountain and the cleanest and neatest service. That's what makes it good. That should speak to you, and induce you to meet and treat at our function, now and for the balues of the summer. Any flavor you want; all the old-timers, and the newest ones.
